If two youth show the same llama, only the first score will count for the llama. If a youth shows more than one llama, they must indicate on the entry form which llama will be used towards youth points. It must be the same llama in each performance class. ## *“Kumbayama Grand Prix” Agility Jackpot*

### **Class No. 51**

We're offering something new in the performance department! A “Grand Prix” styled agility jackpot! The llama and handler team with the lowest score in the best time wins. Instead of each obstacle being judged on a scale of 1 to 10, faults will be awarded for errors.

#### **Refusal**

#### **4 faults**

Two refusals at the same obstacle warrants elimination.

#### **Incomplete obstacle**

#### **3 faults**

You may make multiple attempts to complete the obstacle as long as one foot of the llama enters the obstacle each time. 3 faults for incomplete. 0 faults if you complete the obstacle regardless of the number of attempts.

**Obstacle disruption            2 faults**

i.e. Rail down; parts moved; etc. anything requiring the obstacle to be reset

**Exceeding time allotted       1 fault per 2 seconds**

A base time for completion will be established day of show.

You must complete the course within that time frame to earn 0 time faults.

A clean round will be awarded 0 faults. If there are multiple clean rounds there will be a run-off. The best time wins. Fault scale will still apply. If there are no clean rounds there will be no run-off and the lowest score with the best time will be declared the winner.
